

## Washington Healthplanfinder – 10.7 System Release

### System release outage

Washington Healthplanfinder will be updated on August 24, 2023, at 7:30 a.m. There was a brief outage overnight the night before. For any additional updates view the Outages and Maintenance Page: [wabhexchange.org/news-center/outages-maintenance/](http://wabhexchange.org/news-center/outages-maintenance/)

### Customer-facing updates

- Covid-19 has been removed from the Alien Emergency Medical (AEM) screening question and field level help.
- *Domestic production activities* is no longer an allowable deduction and has been removed from the allowable deductions dropdown.
- Clearer instructions have been added to the immigration page regarding the SEVIS ID to indicate individuals only need to include numbers and not the N.
- Eligibility Service downtime modals have been updated to include the number of days individuals will need to wait for a resolution.

### Screen Reader Updates

- The carrier logo will now be read when a customer using a screen reader is on a plan card for an Apple Health Managed Plan.
- When a customer using a screen reader is searching on the Message Center, they will now have the “no Results to Display” message read.

## System Corrections

- When a household with a dependent that will turn age 26 by end of current year is renewed, the customer will now see “Why this result” to let the user know why their dependent was denied for next year.
- Adding a foreign passport will no longer cause an issue with the dropdown or spacing.
- Customers will be able to add “other” income types without having issues moving forward in the application.
