Unemployment Income Overview

Unemployment Income Overview

Under the federal CARES Act, individuals on unemployment will receive an additional \$600 per week for up to four months.

Individuals can review their unemployment benefits via:

- [SecureAccess Washington \(SAW\)](#). The weekly benefit amount is listed under the *Summary* tab in the individual's account and will not include the additional \$600 per week.
- [Employment Security Department website](#). The total weekly amount is listed under the *Weeks Summary* tab and includes the additional \$600 per week.

Federal Pandemic Unemployment

The Federal Pandemic Unemployment benefit of \$600 per week is:

- Not countable income for Washington Apple Health (Medicaid).
- Countable income for Qualified Health Plan (QHP) with tax credits.

Washington Healthplanfinder will return appropriate eligibility results when reporting unemployment compensation received.

Unemployment Income (UI)

Additional details are now required when reporting unemployment benefits in Washington Healthplanfinder. Updates include:

- Reporting all unemployment benefits received including the Federal Pandemic Unemployment benefits.
- Calculating monthly income for Apple Health differently than QHP with tax credits.
- Capturing the start and end date of unemployment benefits.
- Reporting an end date instead of removing unemployment benefits. This selection is now greyed out.
- Adding the field level help to provide assistance with the new unemployment reporting.
